

I have been greatly distressed by what I have seen in the past few days about what is being allowed to happen - the Sinclair Broadcast Group and its decision to air a one sided "documentary" without equal and proportionate coverage from the other side. This is a disgrace to our country - and goes against everything that our Founding Fathers stood for. In an era when the FCC seems more interested in Janet Jackson's breast or strippers at a bachelor party --- I find it quite disturbing that nothing has been done to tame a direct assault to our democracy. The behaviour of this company is a direct breach of the public trust - and goes against every thing this country stands for. Not only are they airing one side - but doing it with Stalinist propaganda. And I am a Republican.

I am unable to tolerate this blatant UNAMERICAN behavior. Please do something about this - your credibility is on the line.
